ESTRELLA GALICIA

Estrella Galicia is Spain's largest independent brewery founded in 1906 by José María Rivera Corral, a local resident who had found his passion for beer during his travels in Mexico and Cuba.

Rivera Corral started his first brewery alongside an ice factory. this site still stands and is now an extremely busy beer hall serving only Estrella Galicia beer and water.

Over 110 years later, A Coruña continues to be the only place in the world where we brew our beer.

In all this time, we have continued to champion Jose María Rivera's idea of offering unique, delicious beers that are refreshing and satisfying.

Export outside of Spain started little over 10 years ago and comprehends, nowadays, a range of more than 70 countries
