

The beer that inspired this crazy journey, ours is a hop driven Pale Ale bursting with flavour and aroma. Full-bodied yet refreshing, the bitter finish will leave your tastebuds craving more.

We have brewed our Pale using whole hop cones, sourced straight from the US directly to our breweries (something pretty unique) and use our hop back to extract those beautiful, hoppy aromas and delicate bitterness. Preservative and additive free, our Pale Ale is live yeast conditioned, in the bottle (after filling) for unmatched freshness and character and takes about six weeks from brewing to be released.
